Mission, Vision and Value Proposition

ISC2 Chapters serve as extensions of ISC2, helping to advance our vision and contributing to our mission and goals.

Establish consistency and efficiency across all ISC2 Chapters

Value Proposition:

- Give back to your local InfoSec community and share your time, talent, knowledge and experience to support the mission of inspiring a safe and secure cyber world and nurture the next generation of InfoSec professionals.
- See the value of sharing ideas, interacting and working with peers and build a network of colleagues and friends along the way.

ISC2 Omaha-Lincoln Chapter Bylaws

Bruce Wray, acting President

- Updated January 2025

- Public draft open for review:
  https://drive.google.com/file/d/1-r52PNZDuNJI58vC-xp18EjZ2tg6qb5V/view?usp=sharing

- Membership open to anyone in the area

ISC2 Omaha-Lincoln Chapter Board

President: Bruce Wray

Board members:

- Patty Ellington

- Robert Copley / Roy Gertig, Treasurer

- Ron Woerner

- Joe Kannas

- Greg Bradley

Volunteers Wanted!

Code of Ethics Canon

- IoT Security – FCC <u>US Cyber Trust Mark program</u>

RSAConference2025™

San Francisco | April 28 – May 1 | Moscone Center

RSAC 2025
CALL FOR SUBMISSIONS
TRENDS REPORT

RSA Conference analyzed a record-breaking amount of call for submission proposals to get a glimpse into trends that will be top of mind for the industry this year.

https://email.rsaconference.com/p/7K6E-9YN/nur-53-top-trends-rsac2025

1 Agents of AI
Discovering the balance between agentic AI, security risks, and the need for the AIBOM (AI Bills of Materials).

2 Large Language Models (LLMs)
Exploring LLMs' potential and risks, emphasizing security vulnerabilities and the need for secure RAG workflows.

3 Non-Human Identities (NHI)
AI has raised new identity challenges, with a focus on securing non-human identities (NHIs) in the cloud.

4 AI assistants
As AI blurs human-machine lines, submissions explore the risks of over-relying on AI code and its security impact.

5 Ethics
AI's rise calls for ethical governance and responsible regulation in cybersecurity.

6 API risks
Innovation is raising concerns over API security, especially with GenAI and LLMs impacting supply chains and tools.

7 Quantum
Cybersecurity teams are preparing for a post-quantum world, using AI to inform strategies for protecting against future quantum threats.

8 Guardians of all things
Cybersecurity "guardians" are balancing innovation with caution while protecting both systems and teams.

9 Community
RSA Conference 2025 focuses on building an inclusive, resilient cybersecurity culture to protect all communities.

10 Many Voices. One Community.
Security experts at RSAC 2025 are exploring the future of technology while ensuring human collaboration remains at the forefront.

Our Objectives

Connect	Educate	Inspire	Secure
· Professional Networking · Career Development · Job Connections · Knowledge Exchange · Joint Opportunities · Social Outings · Fellowship	· Industry Expert Presentations · Study Groups · Seminars/Workshops · Curriculum Development · Continuing Professional Education (CPE's)	· Mentor Students · Special Interest Groups · Cybersecurity Awareness · Advocacy for the Profession · Leadership Development · Professional Development · Fundraising (Scholarships)	· Teaching others to be Safe Online (children & seniors) · Form Partnerships with Public & Private Sector · Collaborate on Cybersecurity Awareness Projects

The mission of the chapter is to provide members and other security professionals with the opportunity to share knowledge, grow professionally, raise security awareness and advance information in local communities, around Nebraska, and around the world.
