Our Objectives

Connect	Educate	Inspire	Secure
• Professional Networking • Career Development • Job Connections • Knowledge Exchange • Joint Opportunities • Social Outings • Fellowship	• Industry Expert Presentations • Study Groups • Seminars/Workshops • Curriculum Development • Continuing Professional Education (CPE's)	• Mentor Students • Special Interest Groups • Cybersecurity Awareness • Advocacy for the Profession • Leadership Development • Professional Development • Fundraising (Scholarships)	• Teaching others to be Safe Online (children & seniors) • Form Partnerships with Public & Private Sector • Collaborate on Cybersecurity Awareness Projects

The mission of the chapter is to provide members and other security professionals with the opportunity to share knowledge, grow professionally, raise security awareness and advance information in local communities, around Nebraska, and around the world.

ISC2 Membership Info

"Becoming an ISC2 member may be the best decision you can make for your cybersecurity career. There are lots of opportunities to network, increase your knowledge and be recognized in the cybersecurity industry. ISC2 membership has helped my career immensely."

– James McQuiggan, CISSP, USA

Increased communication and engagement with Chapters

- **Strengthened Role of Chapter Advisory Committee**

- **Held Frequent Forums** – Chapter in the Know info sessions, held quarterly with an ISC2 executive to provide strategic insight and gain feedback

- **Hosted Leadership Trainings:** Offering leader orientation twice a year (Q1 & Q3) for new chapter leaders; recorded sessions available as evergreen resource.

- **Reformatted Chapter Leadership Meeting at Congress:** More engaging discussions and sharing

- **12 Chartered Chapters 2023 (Q1 & Q3):**
  - **APAC:** Cambodia, Pune
  - **EMEA:** Algeria, Cape Town, Scotland, Spain
  - **N America:** Florida Space Coast, Houston, Manitoba, Saskatchewan

Unified Body of Knowledge (UBK)

ISC2 CISSP CBK Update 2024

On <mark>April 15, 2024</mark>, ISC2 will refresh the CISSP credential exam!!!

- https://www.isc2.org/certifications/cissp/cissp-exam-refresh-faq

- https://cissprep.net/cissp-exam-changes-2024/

- https://www.isc2.org/-/media/Project/ISC2/Main/Media/documents/domain-refresh/CISSP-Detailed-Content-Outline-with-Weights-2024.pdf

- https://www.isc2.org/Insights/2024/02/Computerized-Adaptive-Testing-CISSP-Examinations-All-Languages

What is the Unified Body of Knowledge (UBK) project?

- In 2024, ISC2 is undertaking a unification of its bodies of knowledge across all certification schemes. This project aims to:
  - Build a single expanding body of collective and refreshed knowledge from across our bodies of knowledge and the profession
  - Create a comprehensive and interconnected understanding of cybersecurity practice
  - Identify evergreen knowledge for relevance and usefulness for professionals at every career level
  - Supports career development from entry level practitioner to expert
  - Distributed globally in an ISO-compliant platform

ISC2 | CHAPTERS
Connect | Educate | Inspire | Secure

Why are we doing this project?

- By unifying our bodies of knowledge, we will:
  - Enhance the value of our common body of professional knowledge
  - Provide structure and standardization across certification schemes
  - Allow ISC2 to more rapidly address current trends, threats, countermeasures, terminologies and regional/jurisdictional needs
  - Cross-reference professional knowledge across many resources to support better professional practices
  - Create an accessible and searchable competency framework and knowledge resource for professionals

How will we do it?

- Starting with the CISSP, ISC2 will hold a series of knowledge writing and editorial workshops throughout the year. Activities you can look forward to are:

  - Technical Advisory Panel workshops. Participants will:

    - Analyze, update, and validate existing knowledge
    - Identify and provide guidance on emerging topics

  - Content Advisory Panel workshops. Participants will:

    - Assess knowledge for relevance, accuracy, and completeness
    - Validate knowledge and make recommendations for improvement

Why get involved?

- For this project to be successful, we are calling on our entire global membership to participate. Members participating will:
  - Have a direct impact on the profession
  - Help enhance professional development opportunities
  - Build connections with a global community of members
  - Earn Continuing Professional Education credits
  - Sign into your ISC2 account to complete the volunteer form:

    - my.isc2.org/s/volunteer-form
  - Send our team an email: UBK_Project@isc2.org

NEW Career Resources webinar series

Advance your career through ISC2's new Career Resources webinar series.
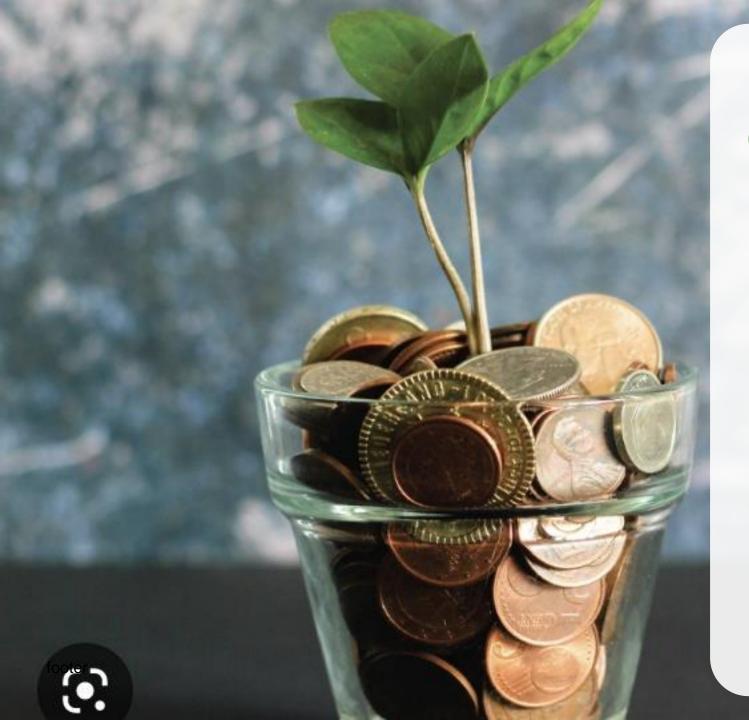

- Presentations from industry-leading security and career development professionals

- Topics include searching for jobs, creating a career roadmap, developing leadership skills and more!

Chapter Stipends

- To better support individual ISC2 chapters, **ISC2 offered a $500 stipend to all chartered chapters**

- This financial support helped chapters carry out administrative or operational functions, as well as fund the chapter mission to connect, educate, inspire and secure.

- **96** transactions completed by year end 2023.

Chapters as 1MCC Partners

1MCC Partner Program

- Launched in April 2023

- 160 Approved Partners

  - Academic

  - Corporate

  - Government

  - Not-for-Profit

- Partners on every continent

- Adding to the number of CC candidates

- Potential to add ≈50,000 candidates

1MCC Lessons Learned

Some key takeaways from previous pilots

- Online Self-Paced Training is a great tool

- Accountability helps to keep candidates on track

- Candidates like to ask questions!

- Exam passers become registered CC Holders - **98%**

Official ISC2 CC Online
Self-Paced Training - 1M

Chapters as 1MCC Partners

Connect

- Led by Chapter volunteers with support from ISC2

Educate

- Structured Study Support program and access to resources for program delivery

Inspire

- Engaging and motivating candidates through the process

Secure

- ISC2 to provide reporting to understand impact on generating cybersecurity professionals
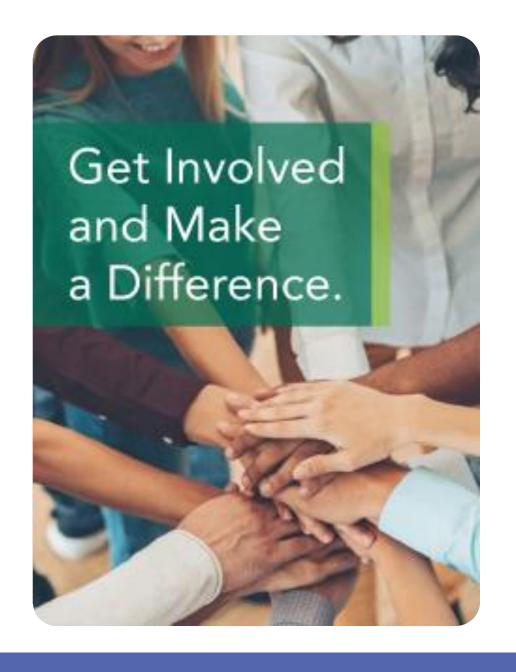

Become a 1MCC Partner

- Chapters to begin a pilot in April **#ISC2gether**

- A group of volunteers to work on the project for a 3-month program

- Desire to connect with new members and help build networks

- Support and guidance provided

  - Recruitment phase

  - Candidate exam registration

  - Chapters as subject matter experts

or email us at Center@isc2.org

Example – Sri Lanka

An NGO reached out about using our Safe and Secure Online materials for the work they are doing in Sri Lanka.

I reached out to the local chapter to see if they would help us train the trainer for SASO.

They agreed and we worked out a three-way collaboration agreement where we provide the materials, the chapter helps train the NGO participants and the NGO gives presentations across the country.

The chapter gains a member engagement opportunity, the Center increases our impact, and the NGO gets first in class training and materials.
