- Ron Woerner, Vice President

- Patty Ellington, Secretary

- Robert Copley / Roy Gertig, Treasurer

- Greg Bradley, Membership

- Joe Kannas

Volunteers Wanted!

# Our aim is to drive value
for you, our members, in everything we do

Mission, Vision and Value Proposition

ISC2 Chapters serve as extensions of ISC2, helping to advance our vision and contributing to our mission and goals.

Establish consistency and efficiency across all ISC2 Chapters

Value Proposition:

- Give back to your local InfoSec community and share your time, talent, knowledge and experience to support the mission of inspiring a safe and secure cyber world and nurture the next generation of InfoSec professionals.
- See the value of sharing ideas, interacting and working with peers and build a network of colleagues and friends along the way.

Code of Ethics Canon

You will:

- Protect society, the common good, necessary public trust and confidence, and the infrastructure

- Act honorably, honestly, justly, responsibly, and legally

- Provide diligent and competent service to principles

- Advance and protect the profession

Our Objectives

Connect	Educate	Inspire	Secure
· Professional Networking	· Industry Expert Presentations	· Mentor Students	· Teaching others to be Safe Online (children & seniors)
· Career Development	· Study Groups	· Special Interest Groups	· Form Partnerships with Public & Private Sector
· Job Connections	· Seminars/Workshops	· Cybersecurity Awareness	· Collaborate on Cybersecurity Awareness Projects
· Knowledge Exchange	· Curriculum Development	· Advocacy for the Profession	
· Joint Opportunities	· Continuing Professional Education (CPE's)	· Leadership Development	
· Social Outings		· Professional Development	
· Fellowship		· Fundraising (Scholarships)	

The mission of the chapter is to provide members and other security professionals with the opportunity to share knowledge, grow professionally, raise security awareness and advance information in local communities, around Nebraska, and around the world.

Review of 2025 Strategic Objectives

- Increase demand for ISC2 certified professionals within industry, academia and government by accelerating ISC2 recognition activities

- Drive progression of ISC2 Candidates to certified membership

- Continue One Million Certified in Cybersecurity

- Issue guidance to support professionals implementing authoritative requirements

- Develop Cybersecurity Code of Professional Conduct

- Amplify ISC2's role as a leading advocate and initiate action on the global harmonization of standards and recognition

- Update AI strategy and execution for 2025

- Implement Board-approved Chapter Strategy

- Create 50x50 strategy to create 50% of cybersecurity profession is represented by women by 2050

Participate in ISC2's Annual Global Community Service Event!

ISC2gether offers ISC2 members, chapters, staff, families and friends the opportunity to join together globally to give back, provide service to their communities, help those less fortunate, and implement activities to help improve the world around us.

Host or participate in a community service activity in the month of April!

Join the ISC2 Community

Connection Created for cybersecurity and IT professionals, the ISC2 Community allows you to connect, collaborate and share your knowledge and experience

Community More than 60,000 Community users worldwide

Resources Offers study groups, job postings, industry news and more!

Request for SMEs – Curriculum Development

Subject Matter Experts will provide insights and practical knowledge in these areas to **develop courses** that engage learners beyond conceptualization. Ideal experts are **strong presenters** who are comfortable being recorded.

Time and commitment include:

- There are no in-person requirements for these projects

- All content development and meetings are conducted through web platforms

- Projects are scheduled for development from May through November

- Typical commitment is 15 to 30 hours (depending on the target CPE total of the assigned project) over an 8-to-10-week timeline

- **Participants will be compensated through a flat-rate contract for their work**

For more information, contact Ken Enslow at kenslow@isc2.org

ISC2 Continuing Education is seeking subject matter experts to contribute to **asynchronous, instructor-driven courses** ranging from 0.5 to 2 CPEs in the following areas:

- Cloud Security - Topics include cloud architecture strategy, zero trust in cloud environments, multi-cloud security, provider and service agreement evaluation, and cloud GRC. (Need: 4)

- AI and Machine Learning - Topics include responsible AI use, AI threat detection and response, and generative AI and secure development. (Need: 2)

- Threat Handling and Incident Response - Topics include SIEM integrations and communicating incident response and findings to stakeholders. (Need: 1-2)

- Application Security - Topics include getting started in application security and management of stakeholders and developers. (Need: 1-2)
